Client:

WEICON GmbH & Co. KG
Königsberger Straße 255
48157 Münster

Description of specimen:

WEICON Zinc Spray "bright grade"

Sampling:

Container was supplied by the company
WEICON GmbH & Co. KG

Container:

400 ml

TÜV Reception No.:

20 308

This report consist 3 pages.

Test results pertain to the named samples. Parts of this test report may not be replicated without our written permission.

Within the framework of the agreement between TÜV NORD Systems GmbH & Co. KG and WEICON GmbH & Co. KG, Ref. No. 1424/656845200, dated 01.10.2003, concerning use of a TÜV NORD test mark, the product "WEICON Zinc Spray bright grade" was examined with respect to its properties.

2. Testing in the current contract year 2020

The product properties were examined in terms of corrosion resistance on a steel surface with reference to DIN ISO 7120 in accordance with the TÜV NORD Test Specification dated 01.06.1998.

Result

- Tap water: The zinc coating is corrosion-resistant.

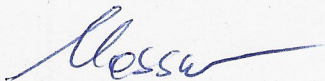

Result

- Synthetic seawater: The zinc coating is corrosion-resistant.
